

## Succession

Admit Slip: Do you think that people today can live by the Aboriginal values?

**Explain your thinking.**

---

---

Succession – the natural replacement of one community of living things by another.  
The changes take place over time.

Primary Succession – The formation of a new community where no community has existed.  
(Example: volcanic islands)

Secondary Succession – When a community has been destroyed or disturbed by natural occurrences or human activities. A new community replaces it.  
(Example: farmers field, vacant lot)

Activity: Declaring War on Weed (page 67)

Assessing human Impact (Housing, Transportation, recreation)

Costs and Benefits of Recycling

Exit Slip:

Should we recycle? **Explain your thinking.**
